## HEALTH SCREENING International Students

### HEALTH SCREENING AND VACCINATION REQUIREMENTS

1. Students must perform ALL the following analyses:

- COMPLETE BLOOD COUNT (CBC)
- GLUCOSE
- CREATININE
  
- UREA
- GPT/GOT/GammaGT
- TRIGLYCERIDS
- TOTAL CHOLESTEROL
- HDL CHOLESTEROL
- PROTEIN ELECTROPHORESIS

2. Students must certify that they are vaccinated for Hepatitis B with anti HBS. In case the students are not vaccinated for Hepatitis B they must certify they are not currently infected with **Hepatitis B** (core and surface) or **C**. In the case of a positive result from the above, a Hepatitis B e-antigen (HBeAG) test and a PCR test for Hepatitis C RNA with a negative result will be required

3. Students must show a Mantoux test or IGRA test.

4. Students must certify their immunity to **Chickenpox, Measles, Mumps and Rubella** with the vaccination certificate with 2 doses of vaccine. If the students haven't two doses of vaccine, a blood test will be required to confirm this (IgG).

5. The University will only accept an original test result from a recognised medical establishment, stamped and authorised by a qualified official and carried out not more than six months prior

to entry. The University reserves the right in all cases to require a confirmatory test in a testing centre of its own choosing.

6. Incomplete documentation will not be accepted. Failure to provide this documentation will make it impossible for the student to attend the training departments.
